

FOR IMMEDIATE RELEASE

Shionogi to Modernize Product Quality Management in the Cloud with Veeva Vault QMS

*Pharmaceutical company in Japan
unifies product quality management processes across global stakeholders*

BARCELONA, Spain — 26 March 2018 — Veeva Systems today announced that **Shionogi & Co., Ltd.**, a company in Japan, decided to select **Veeva Vault QMS** to improve the efficiency of product quality management across its sites inside and outside Japan. With Vault QMS, Shionogi will modernize its global product quality management processes.

Shionogi required greater simplicity and flexibility in managing its product quality management processes. The fast implementation and user-friendly configuration environment of Vault QMS are expected to provide greater agility in addressing changing business and regulatory requirements. In addition, Vault QMS is expected to help Shionogi drive seamless information management for external stakeholders with an innovative, cloud-based application.

"Shionogi is committed to continuous innovation in everything they do," said Takashi Okamura, general manager of Veeva Japan. "We're honored that they have chosen Veeva Vault QMS to harmonize their global product quality management processes."

Veeva Vault QMS is a modern, cloud-based application that unifies quality management processes and internal and external stakeholders for better control and visibility. This will contribute to reducing risks related to the product quality of medicines and continuously providing patients worldwide with high-quality medicines.
