Growth of the Martech Landscape 2011-2020

1. DENIAL

This is the marketing department, not IT.
We don't need a stack of software.

2. ANGER

I really hate the bastard who keeps making these landscapes.

3. BARGAINING

How about if I just buy everything from one marketing cloud vendor?

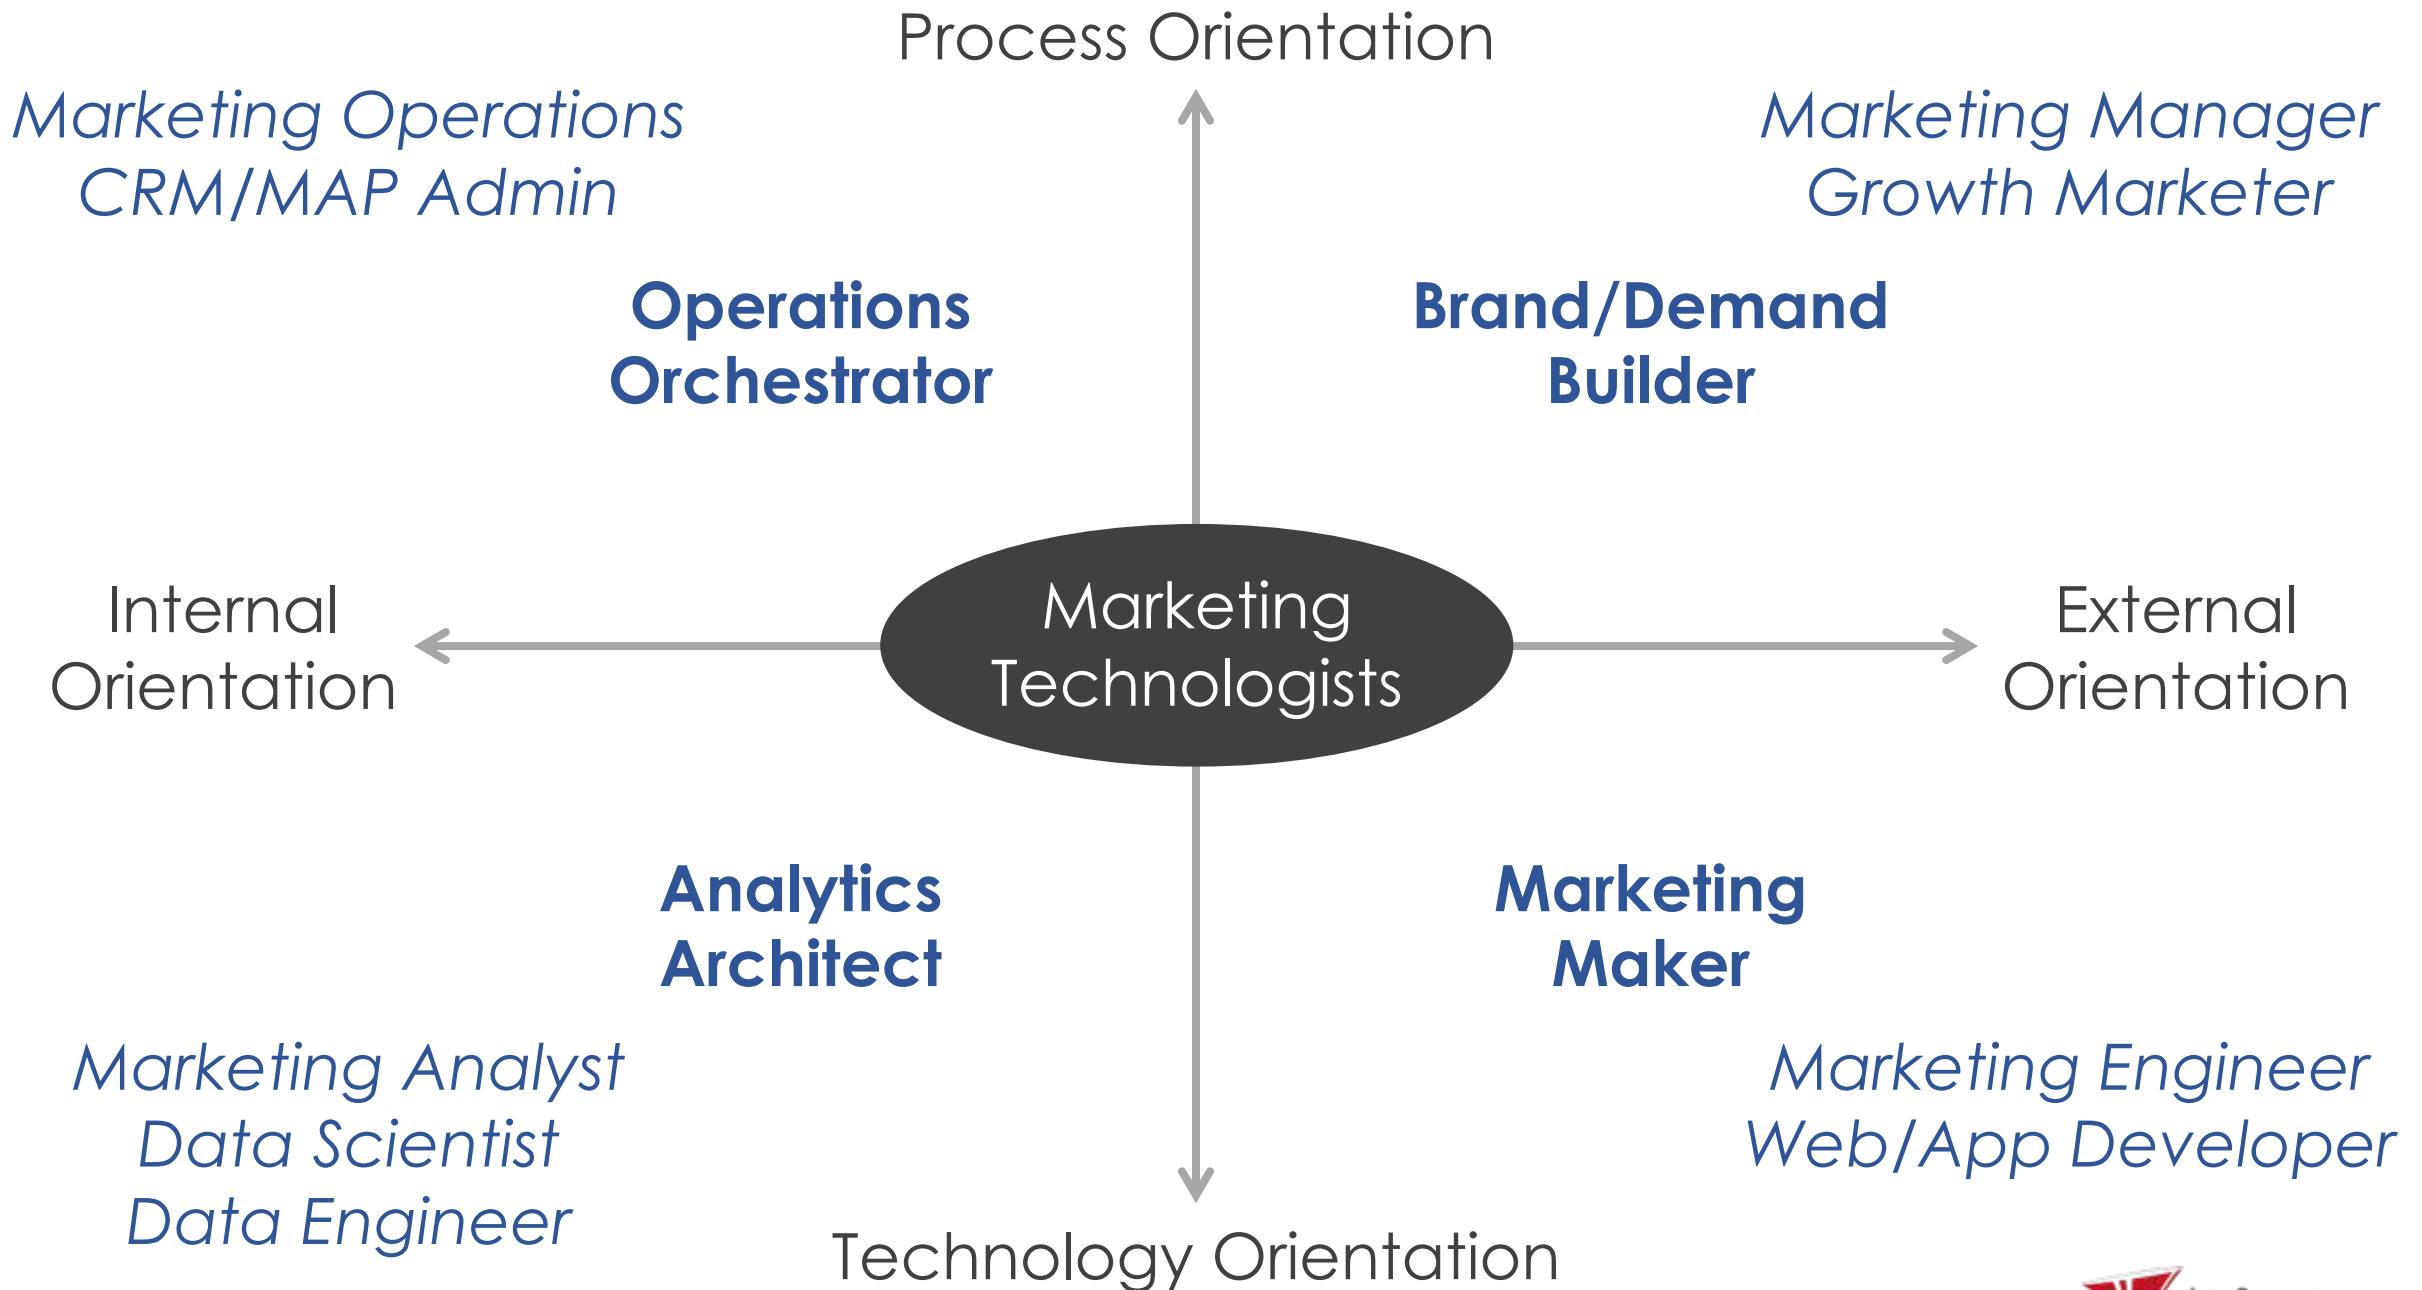

4. DEPRESSION

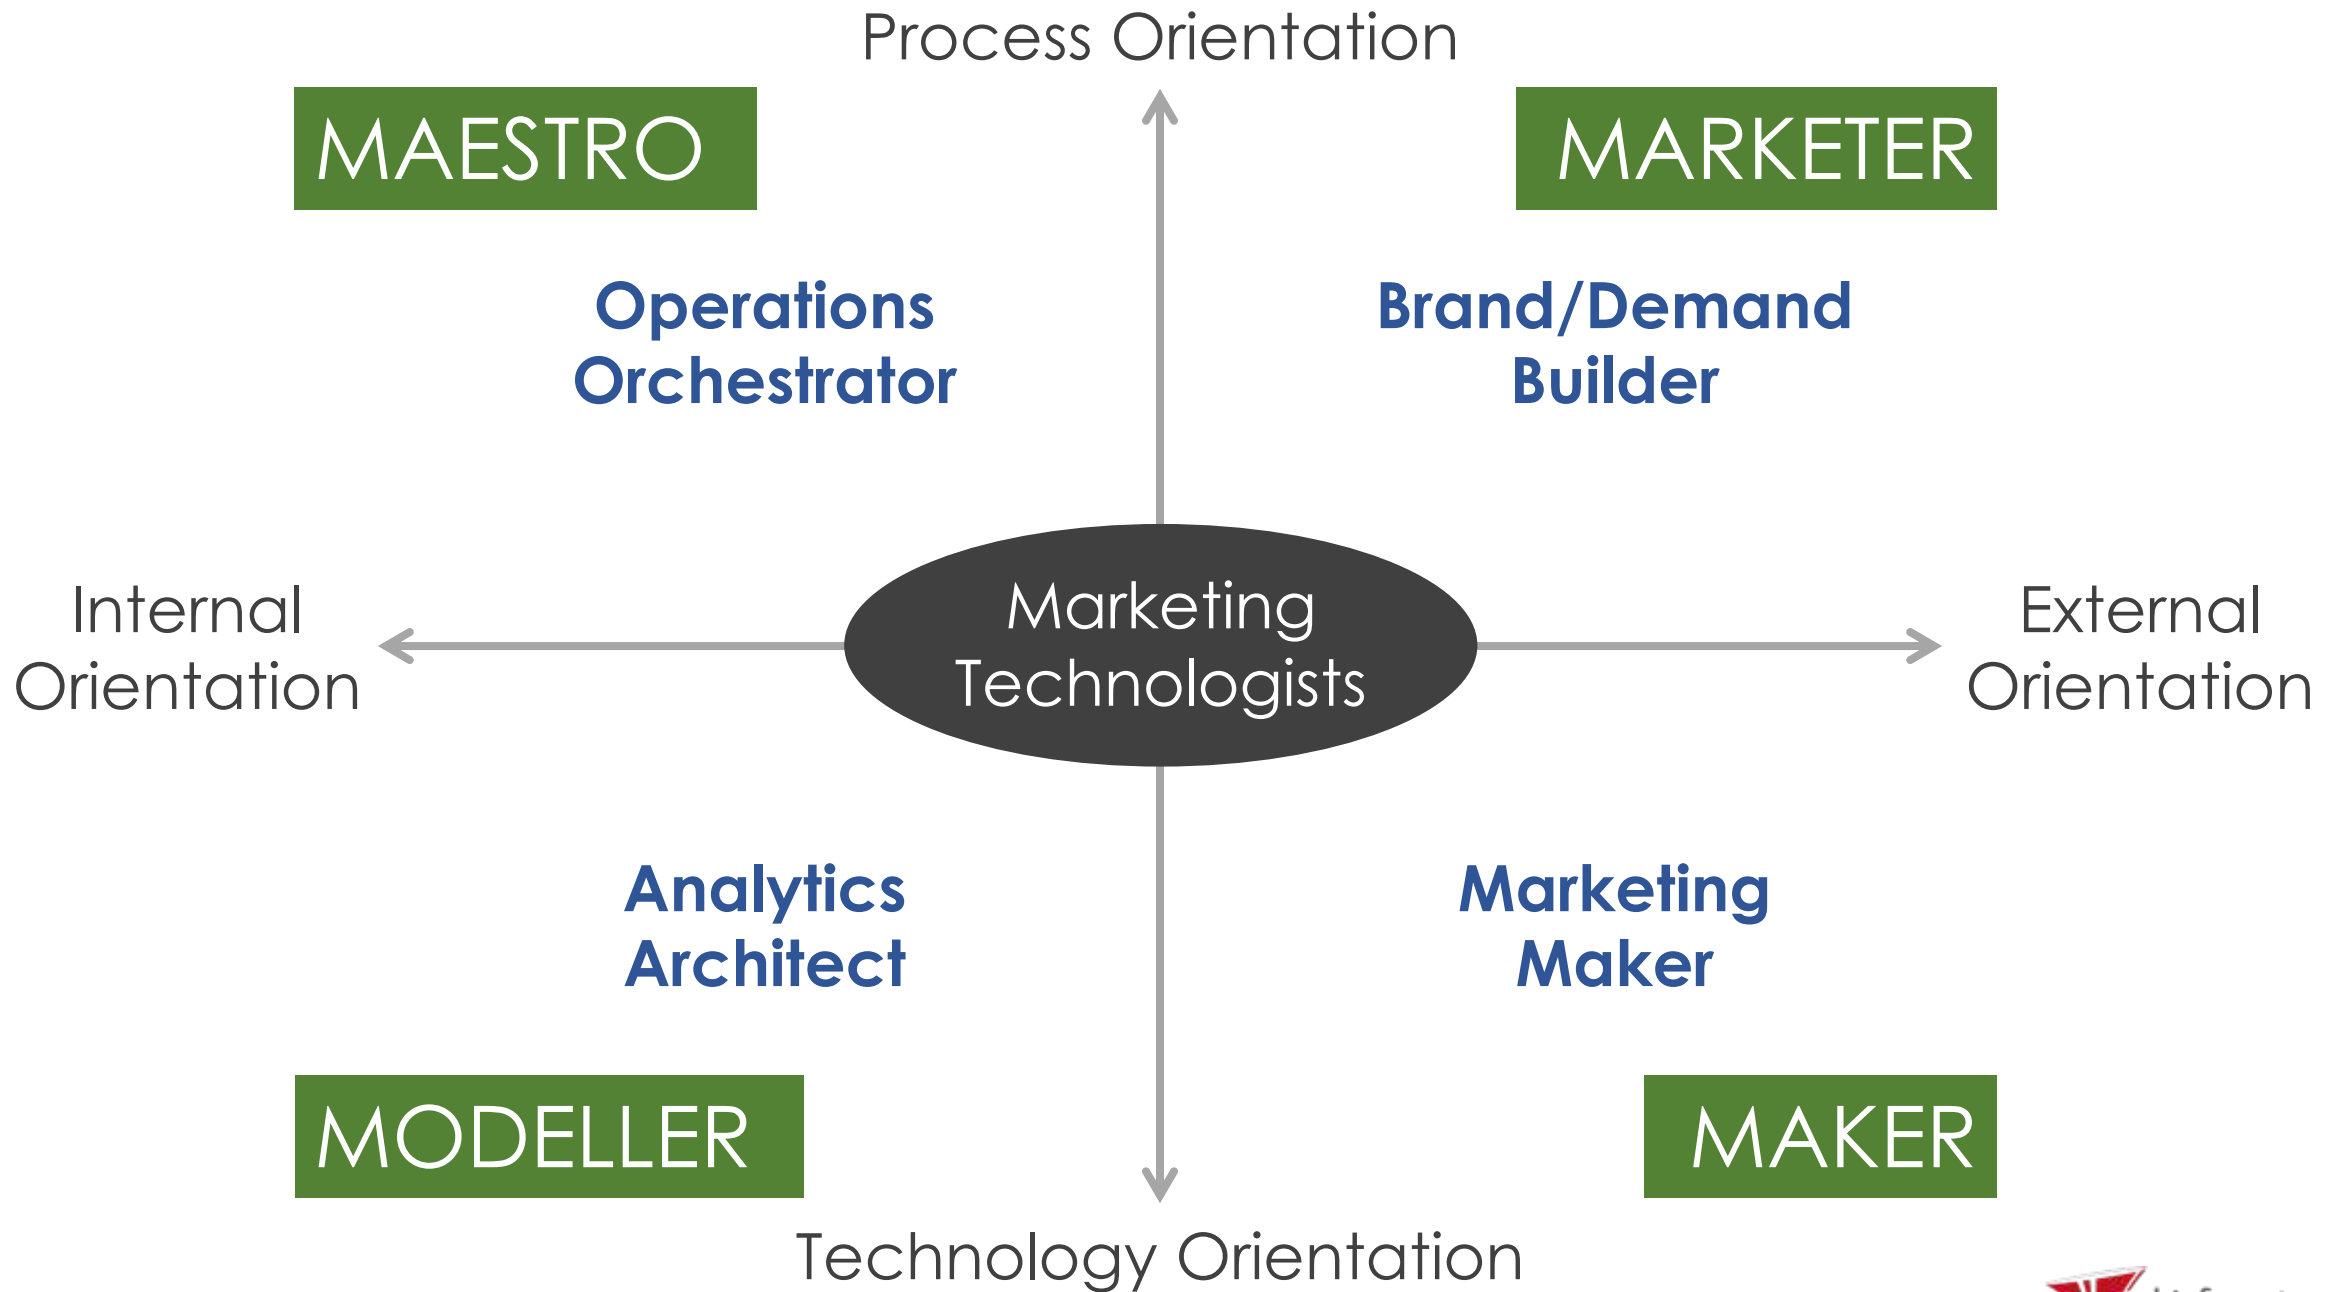

We're never going to get this to work — this is why CMO tenure is so short!

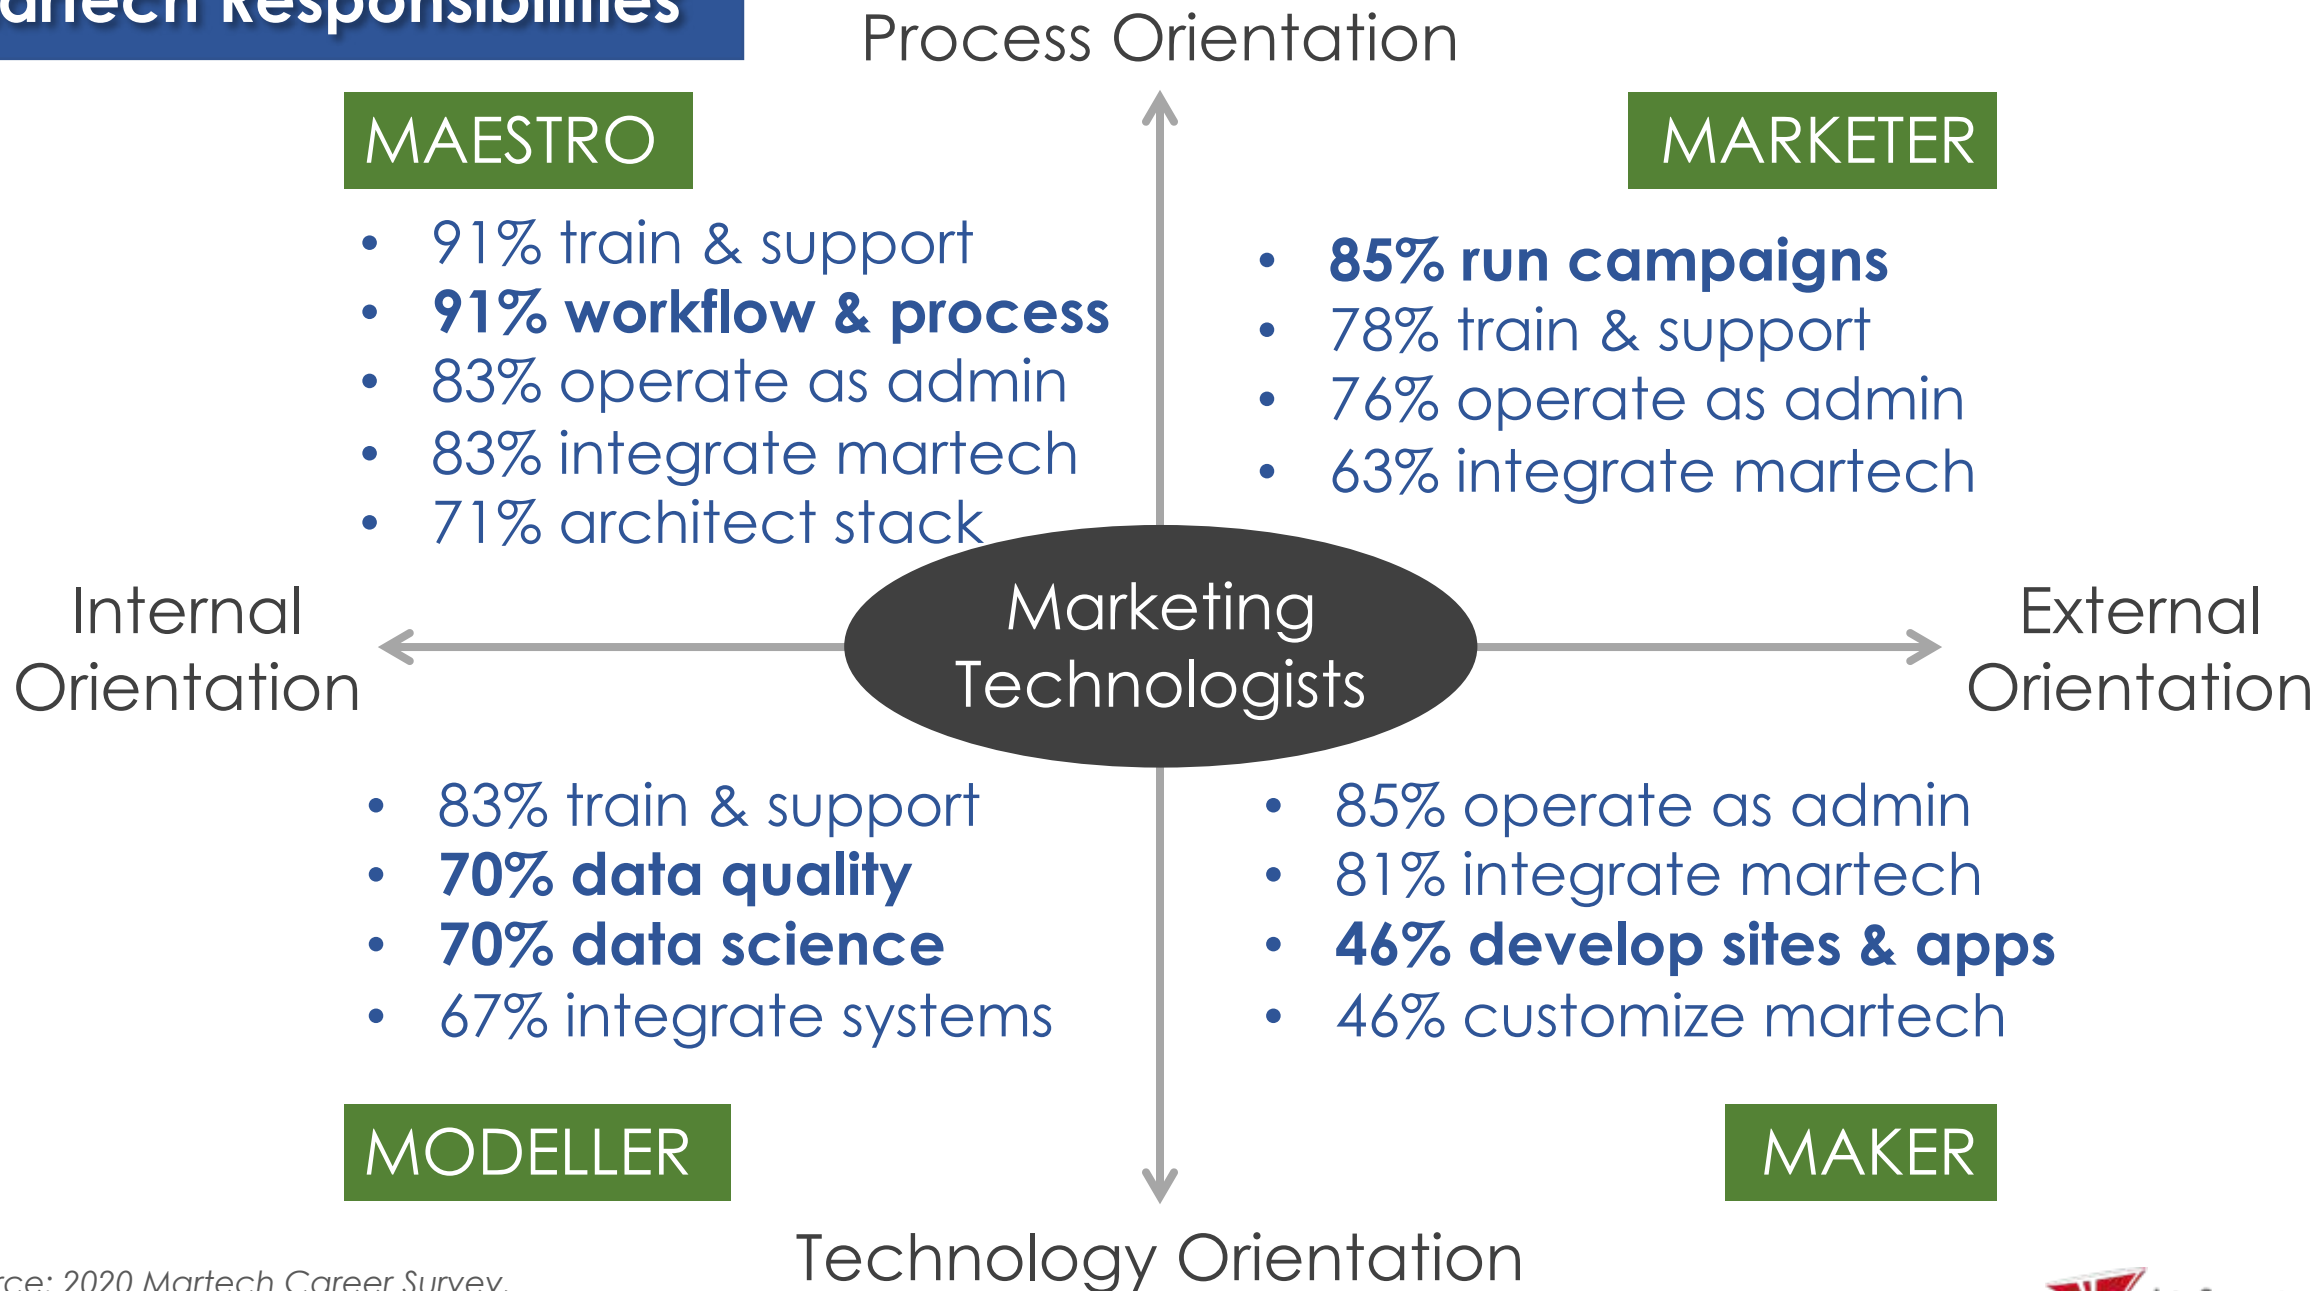

5. ACCEPTANCE

This is the state of marketing today, and it's actually pretty cool.
