

FOR IMMEDIATE RELEASE

TFS HealthScience Standardizes on Veeva Vault Clinical Operations Suite to Accelerate Clinical Development

Veeva Vault unifies clinical documents and processes to improve collaboration and speed execution

BARCELONA, Spain — 25 March 2021 — Veeva Systems (NYSE: VEEV) today announced that TFS HealthScience selected **Veeva Vault Clinical Operations Suite** for end-to-end study management on a single cloud platform. The global CRO is taking action to further modernize study operations, adopting the entire suite for greater efficiency and speed in trials. Now TFS HealthScience will offer its biopharma customers industry-leading technologies and services to run more cost-efficient and compliant studies.

"Veeva Vault Clinical Operations Suite gives us a foundation for further growth as we expand our service offerings globally," said Dr. Bassem Saleh, CEO, TFS HealthScience. "Bringing together study operations streamlines processes, enabling us to maximize value for sponsors and accelerate the delivery of treatments to patients."

TFS HealthScience provides customers with strategically tailored solutions focused on driving excellence and innovation to reduce complexity in trials. Building on its success with **Veeva Vault eTMF** to maintain inspection readiness, the company will use **Veeva Vault Study Startup** to get studies up and running quickly, **Veeva Vault CTMS** to keep studies on track, and **Veeva Vault Payments** to simplify payments to global partner sites. With a connected, agile clinical landscape, TFS HealthScience will centralize governance and study oversight to share insights with sponsors easily.

"With Veeva Vault, we now have complete visibility into study progress and deviations to make better, more informed decisions and ensure studies meet their objectives," said Young Shon, CIO, TFS HealthScience. "Our partnership with Veeva is instrumental to TFS's digital transformation program and our strategic push towards paperless and patient-centric approaches."

"TFS HealthScience is transforming clinical operations to work more efficiently and better serve sponsors," said Pinar Benet, senior director strategy, Vault Clinical Operations at Veeva Systems. "We're excited to continue this journey together towards unified and connected trials to accelerate clinical research."

Vault Clinical Operations Suite enables sponsors and CROs to seamlessly share information and documents across CTMS, eTMF, study start-up, and payments for better collaboration and increased efficiency throughout the study lifecycle.

The **Veeva Unified Clinical Operations Survey: Annual CRO Report** shows that CROs like TFS HealthScience are moving to streamline trial execution by embracing new digital strategies and technologies that eliminate data silos and manual processes. Learn how CROs are modernizing clinical operations to speed trials in the full report, available online at veeva.com/CROReport.
