Veeva Vault PromoMats

Control Your Commercial Content

Enabling emerging pharma companies to launch, optimize, and scale content with speed

Over 300 emerging pharmaceutical companies trust Veeva Vault PromoMats to deliver accelerated review, approval, and distribution of compliant commercial content. The cloud-based software optimizes workflows, streamlines collaboration, and provides greater visibility.

Key Benefits

- **Deep domain expertise:** Delivering best practices and process optimization, industry insights, and access to an extensive peer network
- Accelerated content approval: Compliant workflows with built-in metrics to enable real-time medical, legal, and regulatory (MLR) collaboration and speed time to market
- Scalable platform: Flexible, intuitive software that scales based on your business needs and is natively connected to Veeva CRM

A Flexible, Scalable Solution

Simple, Connected UI

Extensive Support Model

Industry-standard Workflows

Speed with Compliance

High Impact at Emerging Biopharmas

57%
Reduction in time spent in review cycles

55%

Reduction in time spent in review and approval meetings

88%

Reduction in time spent on agencies preparations for review

■■ I can't imagine using two systems for MLR review and DAM — one solution for both is incomparable.

- Director of Marketing Services
