Samsung BioLogics Streamlines Quality Document Management Globally with Veeva Vault QualityDocs

Biopharmaceutical company improves real-time visibility into quality documents

PLEASANTON, CA — July 18, 2018 — Veeva Systems (NYSE:VEEV) today announced that Samsung BioLogics selected Veeva Vault QualityDocs to modernize quality document management. Vault QualityDocs enables Samsung BioLogics to provide transparency into content status and processes for internal and external users, partners, and suppliers worldwide. The company can also better scale its document control processes and ensure global alignment across the business.

Samsung BioLogics, based in South Korea, aimed to improve operational efficiency by giving global stakeholders easy and secure access to quality documents. External users can access Vault QualityDocs from anywhere, anytime in the cloud for greater agility. As a result, Vault QualityDocs will provide Samsung BioLogics with a single source of truth for quality documents.

“Vault QualityDocs will help support Samsung BioLogics’ strategic vision,” said Chie Soo Rhee, senior IT specialist of quality IT systems at Samsung BioLogics. “We look forward to partnering with Veeva to bring together our global quality processes.”

“With Vault QualityDocs, life sciences companies and contract manufacturing organizations can collaborate securely and gain greater transparency into global quality procedures,” said Chris Shim, country manager for Veeva Korea. “Samsung BioLogics is committed to the highest quality standards, and we’re honored to be chosen as a strategic technology partner.”

Vault QualityDocs is a modern, cloud-based application for GxP document control and management that delivers greater compliance, improved quality, and reduced operational overhead. It is part of Veeva Vault Quality Suite that unifies quality processes, document control, and training to drive global operational innovation.
