Tigermed Advances Clinical Data Management with Veeva Vault EDC

Modern EDC streamlines key processes to accelerate study builds and make mid-study amendments with no downtime

PLEASANTON, CA — June 6, 2024 — **Veeva Systems** (NYSE: VEEV) today announced that Hangzhou Tigermed Consulting Co., Ltd. (“Tigermed”) has selected **Veeva Vault EDC** as its technology foundation for modern electronic data capture (EDC). With Vault EDC, Tigermed can simplify complex data management for faster study builds and mid-study amendments with zero downtime. The improvements can significantly advance Tigermed’s clinical data management for the benefit of its customers and the industry.

“We are delighted to partner with Veeva, advancing our operations to help sponsors more efficiently manage clinical trials and deliver on their commitments to the industry and patients faster,” said Ms. Gu Peili, vice president, head of data management at Tigermed. “In recent years, rapid progress has been made in the digitization of clinical trials and EDC in particular, as there have been profound changes in the overseas markets. As a leading CRO, Tigermed keeps investing in new technology, and adopting Veeva Vault EDC will help us to consistently deliver the best experience to our clients around the globe.”

Tigermed is a leading provider of integrated research and development solutions for the biopharmaceutical and medical device industry. As EDC plays an important role in today’s clinical trials, Tigermed’s adoption of Vault EDC will help manage the increasing complexity of trials more efficiently while improving data quality and study execution.

“We’re proud to partner with Tigermed and drive faster, more effective trials,” said Juliana Lu, senior director, R&D and quality and China country lead at Veeva. “With Veeva Vault EDC, Tigermed can deliver more efficient data management services, including higher data quality, lower costs, and a better user experience for research sites. This can help accelerate the development and launch of new drugs to improve patient health.”

Veeva Vault EDC is part of the **Veeva Clinical Platform**, the most complete and connected solution to meet the needs of patients, sites, and sponsors. Eight of the top 20 biopharmas and two of the top six global CROs have standardized on Vault EDC to manage future clinical trials.
